

**Project:**

Waterproofing Over Underground Parking Structure at Ellipse One and Ellipse Two - 36 and 38 Lee Centre Dr.

Completion Date:

July 2, 2020

Description:

The project was to supply and install a waterproof and protective polyurea coating on a driveway roundabout at Ellipse One and Ellipse Two condominium towers in Etobicoke, ON. The polyurea was applied at a WFT of 73 - 80 mils to the properly prepared and primed substrate. Backfilling overtop of area occurred immediately after spray application to allow for paving to be completed on an accelerated schedule.
